BILLING CODE 3710-GM-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Intent To Prepare a Draft Supplemental Environmental Impact Statement (DSEIS) for the Missouri River Fish and Wildlife Mitigation Project Located on the Missouri River From Sioux City, IA to the Mouth Near St. Louis, MO in the States of Iowa, Nebraska, Kansas and Missouri

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: The purpose of the DSEIS is to identify and evaluate the potential environmental impacts associated with the reauthorized Missouri River Fish and Wildlife Mitigation Project and to provide this information in the form of a Draft Supplemental Environmental Impact Statement. The reauthorized project includes the development, restoration, or enhancement of an additional 118,650 acres on individual sites purchased from willing sellers. The project study area is located along 735 miles of the Missouri River from Sioux City, Iowa to the mouth near St. Louis, Missouri. The reauthorized project is a continuation of the Missouri River Mitigation Project authorized in 1986 for 48,100 acres currently being developed on over 20 individual sites. The purpose of the mitigation project is to restore fish and wildlife habitat losses resulting from the construction and development of the Missouri River Bank Stabilization and Navigation project.

FOR FURTHER INFORMATION CONTACT: Mr. Kelly Ryan, Civil Works Branch, ATTN: CENWK-PM-CJ, U.S. Army Engineer District, Kansas City, 601 East 12th Street, Kansas City, Missouri, 64106-2896, Phone: 816-983-3324.

SUPPLEMENTARY INFORMATION:

1. The Kansas City District, Corps of Engineers, is the lead District in undertaking a DSEIS to supplement the EIS prepared for the Missouri River Fish and Wildlife Mitigation Project authorized by section 601(a) of the 1986 Water Resources Development Act (WRDA86). WRDA86 authorized 48,100

acres for mitigation. Section 334(a) of WRDA99 modifies the authority of the Mitigation Project for an additional 118,650 acres.

2. The DSEIS will evaluate the no action alternative and other reasonable alternatives that may be identified during the public scoping process. The proposed action will include the acquisition of sites from willing sellers and the construction of mitigation sites designed to develop, restore or enhance aquatic and terrestrial habitat.

3. Scoping Process

a. The DSEIS public involvement program will include nine public scoping meetings that will use an open house format to obtain input from Native American tribes, government agencies, non-government organizations, and the general public. Tribes, individuals, organizations, and government agencies may participate in the scoping process by written comment and/or by attending a scoping meeting. The scoping meetings will be held at the following locations.

November 13, 2001: Sidney, Iowa—Sidney Elem. School, Cafeteria, 1004 Illinois Street.

November 14, 2001: Onawa, Iowa—West Monona Community High School, Commons Area, 1314 15th Street.

November 15, 2001: St. Joseph, Missouri—St. Joseph Civic Center, Meeting Room, 100 N. 4th Street.

November 19, 2001: Blair, Nebraska—Arbor Park Elementary School, Cafeteria, 1717 Adams Street.

November 26, 2001: Leavenworth, Kansas—Riverfront Community & Convention Center, Riverview Rm, 123 S. Esplanade.

November 27, 2001: Columbia, Missouri—Columbia College, Delaney Hall Banquet Room, 600 N. 8th Street.

November 28, 2001: Lexington, Missouri—Lexington High School, Cafeteria, 2309 Aull Lane.

November 29, 2001: Plattsmouth, Nebraska—Plattsmouth High School, Commons Area, 1916 E. Hwy 34.

December 5, 2001: Washington, Missouri—Washington West Elementary, 1570 W. 5th Street.

All meetings will be held from 5 p.m. to 8:30 p.m. CST.

b. The times and locations of the meetings will also be announced in a primary paper serving each county along the river and by notice sent to parties on the mailing list maintained for this project. The Corps of Engineers encourages participation of affected Native American tribes, affected Federal, State, and local agencies, and other individuals and organizations.

c. Agency scoping and preparation of the DSEIS will be conducted with

appropriate Federal and state environmental and natural resource management agencies.

4. The anticipated date of availability of the DSEIS for public review is in the spring of 2002.

Luz D. Ortiz,

Army Federal Register Liaison Officer.

BILLING CODE 3710-KN-M

DEPARTMENT OF DEFENSE

Department of Army; Corps of Engineers

Intent To Prepare a Draft Environmental Impact Statement for Va Shly'ay Akimel Salt River Restoration Project, Maricopa County, AZ

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: The Los Angeles District intends to prepare an Environmental Impact Statement (EIS) to support the proposed study for the Salt River Pima-Maricopa Indian Community and the City of Mesa. The Va Shly'ay Akimel study area is located in the upper Sonoran Desert in the Salt River watershed. It includes portions of the Salt River Pima-Maricopa Indian Community and the City of Mesa, and includes upland areas around the vicinity of the Salt River between the Pima Freeway (US 101) and Granite Reef Dam. The study area will be refined during the course of the study to include appropriate areas of consideration in accordance with the general study objectives.

The proposed project involves restoration of riparian habitat along the Salt River in Maricopa County, also increased recreational opportunities consistent with ecosystem restoration.

ADDRESSES: Commander, U.S. Army Corps of Engineers, Attn: Stephen Dibble, CESPL-PD-RN, Los Angeles District, Ecosystem Planning Section, P.O. Box 532711, Los Angeles, CA 90053-2325.

FOR FURTHER INFORMATION CONTACT: Mr. Stephen Dibble, Environmental Manager, at (213) 452-3849. He can also be reached by e-mail at ddibble@spl.usace.army.mil.

SUPPLEMENTARY INFORMATION:

1. *Study Authority:* This study would be conducted under two separate authorities provided by Congress. The first and most recent authority is provided by House Resolution 2425 (HR 2425), dated May 17, 1994. The second

LEGAL NOTICE

Intent to Prepare a Draft Supplemental Environmental Impact Statement (DSEIS) and Conduct Public Scoping Process for the Missouri River Fish and Wildlife Mitigation Project

The Corps of Engineers announces its intent to prepare a DSEIS to evaluate the potential impacts associated with the Missouri River Mitigation Project. The proposed action includes the development of an additional 118,650 acres to restore or enhance aquatic and terrestrial habitat on individual sites purchased from willing sellers. The project study area is located along 735 miles of the Missouri River from Sioux City, Iowa, to the mouth near St. Louis, Missouri. The proposed action is a modification to the existing mitigation project authorized in 1986 for 48,100 acres being developed on over 20 individual sites. The purpose of the mitigation project is to restore fish and wildlife habitat losses resulting from the Missouri River Bank Stabilization and Navigation Project. The DSEIS is scheduled for publication in the spring of 2002.

November 13, 2001: Sidney, Iowa - Sidney Elem. School, Cafeteria, 1004 Illinois Street;
November 14, 2001: Onawa, Iowa - West Monona Comm. High School, Commons Area, 1314 15th Street;
November 15, 2001: St. Joseph, Missouri - St. Joseph Civic Center, Meeting Room, 100 N. 4th Street;
November 19, 2001: Blair, Nebraska - Arbor Park Elementary School, Cafeteria, 1717 Adams Street;
November 26, 2001: Leavenworth, Kansas - Riverfront Com. & Conv. Center, Riverview Rm., 123 S. Esplanade;
November 27, 2001: Columbia, Missouri - Columbia College, Dulany Hall Banquet Room, 600 N. 8th Street;
November 28, 2001: Lexington, Missouri - Lexington High School, Cafeteria, 2309 Aull Lane;
November 29, 2001: Plattsmouth, Nebraska - Plattsmouth High School, Commons Area, 1916 E. Hwy. 34;
December 5, 2001: Washington, Missouri - Washington West Elementary School, 1570 W. 5th Street.

Individuals, organizations and agencies may participate by written comment and by attending a scoping meeting. COMMENTS ON THE SCOPE SHOULD BE RECEIVED NO LATER THAN DECEMBER 20, 2001, AND DIRECTED TO: Mr. Kelly Ryan, CENWK-PM-CJ, U.S. Army Corps of Engineers, Kansas City District, 601 East 12th Street, Kansas City, Missouri 64106-2896, Phone: 816-983-3324.

No. 19257: Nov. 15, 2001.

LEGAL NOTICE

Intent to Prepare a Draft Supplemental Environmental Impact Statement (DSEIS) and Conduct Public Scoping Process for the Missouri River Fish and Wildlife Mitigation Project

The Corps of Engineers announces its intent to prepare a DSEIS to evaluate the potential impacts associated with the Missouri River Fish and Wildlife Mitigation Project. The proposed action includes the development of an additional 118,650 acres to restore or enhance aquatic and terrestrial habitat on individual sites purchased from willing sellers. The project study area is located along 735 miles of the Missouri River from Sioux City, Iowa to the mouth near St. Louis, Missouri. The proposed action is a modification to the existing mitigation project authorized in 1986 for 48,100 acres being developed on over 20 individual sites. The purpose of the mitigation project is to restore fish and wildlife habitat losses resulting from the Missouri River Bank Stabilization and Navigation Project. The DSEIS is scheduled for publication in the spring of 2002.

A PUBLIC SCOPING MEETING
will be held between 5:00 pm and 8:30 pm
at the following locations

November 13, 2001: Sidney, Iowa - Sidney Elem. School, Cafeteria, 1004 Illinois Street;
November 14, 2001: Onawa, Iowa - West Monona Comm. High School, Commons Area, 1314 15th Street;
November 15, 2001: St. Joseph, Missouri - St. Joseph Civic Center, Meeting Room, 100 N. 4th Street;
November 19, 2001: Blair, Nebraska - Arbor Park Elementary School, Cafeteria, 1717 Adams Street;
November 26, 2001: Leavenworth, Kansas - Riverfront Com. & Conv. Center, Riverview Rm. 123 S. Esplanade;
November 27, 2001: Columbia, Missouri - Columbia College, Dulany Hall Banquet Room, 600 N. 8th Street;
November 28, 2001: Lexington, Missouri - Lexington High School, Cafeteria, 2309 Aull Lane;
November 29, 2001: Plattsmouth, Nebraska - Plattsmouth High School, Commons Area, 1916 E. Hwy 34;
December 5, 2001: Washington, Missouri - Washington West Elementary School, 1570 W. 5th Street.

Individuals, organizations, and agencies may participate by written comment and by attending a scoping meeting. COMMENTS ON THE SCOPE SHOULD BE RECEIVED NO LATER THAN DECEMBER 20, 2001, AND DIRECTED TO: Mr. Kelly Ryan, CENWK-PM-CJ, U.S. Army Corps of Engineers, Kansas City District 601 East 12th Street, Kansas City, Missouri, 64106-2896, Phone: 816-983-3324.

BILLING CODE 3710-08-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Availability of the Draft Supplemental Environmental Impact Statement for the Missouri River Fish and Wildlife Mitigation Project Located on the Missouri River From Sioux City, Iowa to the Mouth Near St. Louis, MO in the States of Iowa, Nebraska, Kansas, and Missouri

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: This announces the availability of the Draft Supplemental Environmental Impact Statement (DSEIS) for the Missouri River Fish and Wildlife Mitigation Project located on the Missouri River in the States of Iowa, Nebraska, Kansas, and Missouri. The Mitigation Project was first authorized by the Water Resources Development Act (WRDA) OF 1986, which included the development of 48,100 acres of

aquatic and terrestrial habitat for fish and wildlife along the 735 miles of the Missouri River between Sioux City, IA and St. Louis, MO. The WRDA of 1999 modified the Mitigation Project by increasing the amount of habitat development by 118,650 acres to a total of 166,750 acres. The DSEIS assesses the potential environmental impacts of the modified Mitigation Project, which includes the development, restoration, or enhancement of fish and wildlife habitat on an additional 118,650 acres on individual sites purchased from willing sellers and through easements. The purpose of the Mitigation Project is to restore fish and wildlife habitat losses resulting from the construction and development of the Missouri River Bank Stabilization and Navigation Project (BSNP). Seven alternatives are considered in the DSEIS and three alternatives are analyzed in detail including a Preferred Action, No Development alternative, and No Action alternative.

DATES: The public comment period for the DSEIS will end 45 days after publication of the notice of availability in the *Federal Register* by the U.S. Environmental Protection Agency. Comments on the DSEIS should be received no later than November 4, 2002.

FOR FURTHER INFORMATION CONTACT:

Kelly Ryan, US Army Corps of Engineers, Kansas City District, Attn: CENWK-PM-CJ, 601 East 12th Street, Kansas City, MO, 64108-2896, Phone: 816-983-3324.

SUPPLEMENTARY INFORMATION: 1. The U.S. Fish and Wildlife Service, U.S. Environmental Protection Agency, Iowa Department of Natural Resources, Kansas Department of Wildlife and Parks, Nebraska Game and Parks Commission, and the Missouri Department of Conservation are serving as cooperating agencies on the preparation of the DSEIS.

2. Three alternatives are considered in detail in the DSEIS:

a. The Preferred Action alternative includes the development, restoration, or enhancement of fish and wildlife habitat on an additional 118,650 acres on individual sites purchased from willing sellers and through easements. Included in the 118,650 acres would be the construction or restoration of approximately 7,000 to 20,000 acres of shallow water habitat to achieve a goal of 20-30 acres per mile along the 735-mile BSNP.

b. The No Development alternative includes the acquisition of 118,650 acres on individual sites purchased from willing sellers or through

easements, however, there would be no subsequent habitat development or construction activities.

c. The No Action alternative would not develop, restore, or enhance any additional acres for fish and wildlife habitat except for that previously authorized under WRDA of 1986 or that of other state or Federal programs.

3. Open house public meetings on this DSEIS will be held from 4:30 p.m. to 6 p.m. and formal public hearings for the purpose of receiving comments will begin at 7 p.m. at the following locations:

a. October 8, 2002—Lange Middle School, 2201 E. Smiley Lane, Columbia, MO.

b. October 9, 2002—Washington Middle School, 401 E. 14th Street, Washington, MO.

c. October 10, 2002—Lexington Middle School, 1111 S. 24th Street, Lexington, MO.

d. October 15, 2002—Sidney Elementary School, 1004 Illinois Street, Sidney, IA.

e. October 16, 2002—Atchison Heritage Convention Center, 710 S. 9th Street, Atchison, KS.

f. October 17, 2002—Arbor Park Elementary School, 1717 Adams Street, Blair, NE.

4. Copies of the DSEIS are available for review in the following libraries:

a. Atchison Library, 401 Kansas Avenue, Atchison, KS 66002.

b. Atchison County Library, 200 S. Main St., Rock Port, MO 64482-1532.

DEPARTMENT OF EDUCATION

Submission for OMB Review; Comment Request

AGENCY: Department of Education.

SUMMARY: The Acting Leader, Regulatory Information Management Group, Office of the Chief Information Officer invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before October 21, 2002.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Karen Lee, Desk Officer,

Department of Education, Office of Management and Budget, 725 17th Street, NW., Room 10235, New Executive Office Building, Washington, DC 20503 or should be electronically mailed to the e-mail address Karen_F_Lee@omb.eop.gov.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Dated: September 17, 2002.

Joseph Schubart,

Acting Leader, Regulatory Information Management Group, Office of the Chief Information Officer.

Office of Special Education and Rehabilitative Services

Type of Review: Extension.
Title: Annual Report on Appeals Process.

Frequency: Annually.
Affected Public: State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden: Responses: 80. **Burden Hours:** 160.

Abstract: Form RSA-722 is needed to meet specific data collection requirements in Subsections 102(c)(8)(A) and (B) of the Rehabilitation Act of 1973, as amended on the number of requests for mediation, hearings and reviews filed. The information collected is used to evaluate the types of complaints made by applicants for and eligible individuals of the vocational

rehabilitation program and the final resolution of appeals filed. Respondents are State agencies that administer the Federal/State Program for Vocational Rehabilitation.

Requests for copies of the submission for OMB review; comment request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 2082. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to Vivian Reese, Department of Education, 400 Maryland Avenue, SW., Room 4050, Regional Office Building 3, Washington, DC 20202-4651 or to the e-mail address vivan.reese@ed.gov. Requests may also be electronically mailed to the e-mail address OCIO_HMCA@ed.gov or faxed to 202-708-9346. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Sheila Carey at her e-mail address Sheila.Carey@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

LEGAL NOTICE

**Notice of Availability of the
Draft Supplemental
Environmental Impact
Statement (DSEIS) for the
Missouri River Fish and
Wildlife Mitigation Project
and Intent to Conduct
Public Hearings**

The Corps of Engineers announces the availability of the DSEIS that evaluates the potential impacts associated with the modified Missouri River Fish and Wildlife Mitigation Project. The Mitigation Project was first authorized by the Water Resources Development Act of 1986 (WRDA86), which included the development of 48,100 acres of aquatic and terrestrial habitat for fish and wildlife along 735 miles of the Missouri River between Sioux City, Iowa, and the mouth near St. Louis, Missouri. The purpose of the Mitigation Project is to restore fish and wildlife habitat losses that have occurred and will continue to occur due to the Missouri River Bank Stabilization and Navigation Project. The Mitigation Project was modified by the Water Resources Development Act of 1999, which increased the acreage of fish and wildlife habitat development by 118,650 acres to a total of 166,750 acres. The Preferred Action alternative includes the development of up to 118,650 acres to restore, preserve, or enhance aquatic and terrestrial habitat on individual sites purchased from willing sellers and through easements including 7,000 to 20,000 acres of shallow water habitat. The project study area is the 735 miles of the Missouri River from Sioux City to St.

Louis in the state of Iowa, Nebraska, Kansas, and Missouri. The preferred Action alternative would be a modification to the original Mitigation Project authorized by WRDA86. A No Development alternative and a No Action alternative were also evaluated in the DSEIS. Under the No Development alternative, 118,650 acres would be acquired for the modified Mitigation Project, however no habitat development would be performed. The No Action alternative would not include any additional mitigation for fish and wildlife habitat other than that previously authorized by WRDA86.

A copy of the DSEIS is available for public review at 31 libraries including the following:

Callaway County Public Library, 710 Court Street, Fulton, MO 65251

Daniel Boone Regional Library, 100 W. Broadway, Columbia, MO 65201

St. Charles Library, 2323 Elm Street, St. Charles, MO 63301-1440

Hearings**

The Corps of Engineers announces the availability of the DSEIS that evaluates the potential impacts associated with the modified Missouri River Fish and Wildlife Mitigation Project. The Mitigation Project was first authorized by the Water Resources Development Act of 1986 (WRDA86), which included the development of 48,100 acres of aquatic and terrestrial habitat for fish and wildlife along 735 miles of the Missouri River between Sioux City, Iowa and the mouth near St. Louis, Missouri. The purpose of the Mitigation Project is to restore fish and wildlife habitat losses that have occurred and will continue to occur due to the Missouri River Bank Stabilization and Navigation Project. The Mitigation Project was modified by the Water Resources Development Act of 1999, which increased the acreage of fish and wildlife habitat development by 118,650 acres to a total of 166,750 acres. The Preferred Action alternative includes the development of up to 118,650 acres to restore, preserve, or enhance aquatic and terrestrial habitat on individual sites purchased from willing sellers and through easements including 7,000 to 20,000 acres of shallow water habitat. The project study area is the 735 miles of Missouri River from Sioux City to St. Louis in the state of Iowa, Nebraska, Kansas, and Missouri. The Preferred Action alternative would be a modification to the original Mitigation Project authorized by WRDA86. A No Development alternative and a No Action alternative were also evaluated in the DSEIS. Under the No Development alternative, 118,650 acres would be acquired for the modified Mitigation Project, however no habitat development would be performed. The No Action alternative would not include any additional mitigation for fish and wildlife habitat other than that previously authorized by WRDA86.

Copy of the DSEIS is available for public review at 31 libraries including the following:

Atchison Library, 401 Kansas Avenue, Atchison, KS 66002
Atchison County Library, 200 S. Main St., Rock Port, MO 64482-1532

The purpose of the Mitigation Project is to restore fish and wildlife habitat losses that have occurred and will continue to occur due to the Missouri River Bank Stabilization and Navigation Project. The Mitigation Project was modified by the Water Resources Development Act of 1999, which increased the acreage of fish and wildlife habitat development by 118,650 acres to a total of 166,750 acres. The Preferred Action alternative includes the development of up to 118,650 acres to restore, preserve, or enhance aquatic and terrestrial habitat on individual sites purchased from willing sellers and through easements including 7,000 to 20,000 acres of shallow water habitat. The project study area is the 735 miles of the Missouri River from Sioux City to St. Louis in the state of Iowa, Nebraska, Kansas, and Missouri. The Preferred Action alternative would be a modification to the original Mitigation Project authorized by WRDA86. A No Development alternative and a No Action alternative were also evaluated in the DSEIS. Under the No Development alternative, 118,650 acres would be acquired for the modified Mitigation Project, however no habitat development would be performed. The No Action alternative would not include any additional mitigation for fish and wildlife habitat other than that previously authorized by WRDA86.

A copy of the DSEIS is available for public review at 31 libraries including the following:

Blair Public Library, 210 S. 17th Street, Blair, NE 68008

AN OPEN HOUSE AND PUBLIC HEARING

Will be held from:

Open House 4:30 - 6:00 pm
Public Hearing beginning at 7:00 pm,
at the following locations:

October 8, 2002: **Columbia, Missouri** - Lange Middle School, 2201 E. Smiley Lane
October 9, 2002: **Washington, Missouri** - Washington Middle School, 401 E. 14th Street
October 10, 2002: **Lexington, Missouri** - Lexington Middle School, 1111 S. 24th Street
October 15, 2002: **Sidney, Iowa** - Sidney Elementary School, 1004 Illinois Street
October 16, 2002: **Atchison, Kansas** - Atchison Heritage Convention Center, 710 S. 9th Street

October 17, 2002: **Blair, Nebraska** - Arbor Park Elementary School, 1717 Adams Street

Individuals, organizations, and agencies may participate by written comment and by attending a public hearing. COMMENTS ON THE DSEIS SHOULD BE RECEIVED NO LATER THAN NOVEMBER 4, 2002, AND DIRECTED TO: Mr. Kelly Ryan, CENWK-PM-CJ, U.S. Army Corps of Engineers, Kansas City District, 601 East 12th Street, Kansas City, Missouri, 64106-2896, Phone: 816-983-3324. Legal Notice

LEGAL NOTICE

Notice of Availability of the Draft Supplemental Environmental Impact Statement (DSEIS) for the Missouri River Fish and Wildlife Mitigation Project and Intent to Conduct Public Hearings.

The Corps of Engineers announces the availability of the DSEIS that evaluates the potential impacts associated with the modified Missouri River Fish and Wildlife Mitigation Project. The Mitigation Project was first authorized by the Water Resources Development Act of 1986 (WRDA86), which included the development of 48,100 acres of aquatic and terrestrial habitat for fish and wildlife along 735 miles of the Missouri River between Sioux City, Iowa and the mouth near St. Louis, Missouri. The purpose of the Mitigation Project is to restore fish and wildlife habitat losses that have occurred and will continue to occur due to the Missouri River Bank Stabilization and Navigation Project. The Mitigation Project was modified by the Water Resources Development Act of 1999, which increased the acreage of fish and wildlife habitat development by 118,650 acres to a total of 166,750 acres. The Preferred Action alternative includes the development of up to 118,650 acres to restore, preserve, or enhance aquatic and terrestrial habitat on individual sites purchased from willing sellers and through easements including 7,000 to 20,000 acres of shallow water habitat. The project study area is the 735 miles of the Missouri River from Sioux City to St. Louis in the states of Iowa, Nebraska, Kansas and Missouri. The Preferred Action alternative would be a modification to the original Mitigation Project authorized by WRDA86. A No Development alternative and a No Action alternative were also evaluated in the DSEIS. Under the No Development alternative, 118,650 acres would be acquired for the modified Mitigation Project, however no habitat development would be performed. The No Action alternative would not include any additional mitigation for fish and wildlife habitat other than that previously authorized by WRDA86.

A copy of the DSEIS is available for public review at 31 libraries including the following: Blair Public Library, 210 S. 17th Street, Blair, NE 68008

Council Bluffs Public Library, 400 Willow Ave., Council Bluffs, IA 51503-4269

Dakota City Public Library, 1708 Broadway, Dakota City, NE 68731
